## GP AVERAGE EARNINGS

NHS England requires that the net earnings of Doctors engaged in the practice is publicised, and the required disclosure is shown below.

However it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgement about GP earnings, nor to make any comparison with any other practice.

From 1st April 2016 it is a contractual requirement for all GP practices to declare the mean earnings (e.g. average pay) for GP's working to deliver NHS services to patients at each practice.

The average pay for GP's working in Morris Avenue Surgery in the last financial year was **£58,235** before tax and National Insurance.

This is for 1 full-time and 4 locum GPs who worked in the practice for more than 6 months.
